Education

Safari Academy

High School Student

Relevant Coursework: Advanced Math, Physics, Computer Science, Economics

Addis Ababa, Ethiopia

Expected Graduation: June 2026

Technical Skills

Languages: C++, C, Python, PHP, Kotlin, R, MATLAB

Web: HTML, CSS, JavaScript, Laravel, Django, Flask, React

ML/AI: TensorFlow, PyTorch, Scikit-learn, NLP, LLMs (OpenAI, Anthropic), Hugging Face, LangChain

Other: Web Scraping, Data Analysis, LLM, NLP, Cloud Computing

Tools: Git, Docker, Jenkins, AWS, JIRA

Experience

Information Network Security Administration (INSA)

UEBA System Developer & Summer Camp Selectee

Addis Ababa, Ethiopia

2025 – Present

- Selected as 1 of 200 from over 6,000 applicants for Ethiopia's most competitive national tech camp focused on AI systems and real-world impact.
- Collaborated with Dr. Tewodros Legesse Munea to develop an AI-based User and Entity Behavior Analytics (UEBA) system for national infrastructure.
- Designed and implemented algorithms to analyze millions of network events per second, reducing false positives by 40%.
- Developed an NLP model for Amharic and presented it at the camp's closing ceremony.
- Conduct real-time anomaly detection and optimize system performance for large-scale event processing.
- Test adversarial resilience of predictive models and handle noisy, incomplete, or adversarial data.

Addis Ababa University (AAU)

NLP Research Assistant & Higgs Boson Research Assistant

Addis Ababa, Ethiopia

2024 – Present

- Developed NLP models for Amharic and other Ethiopian languages, optimizing tokenization and embedding methods.
- Conducted performance evaluations using precision, recall, and F1 metrics on local text corpora.
- Collaborated on machine learning models for Higgs boson decay pattern analysis.
- Processed high-energy particle collision datasets and applied probabilistic modeling inspired by quantum mechanics.
- Built Python ML pipelines for data analysis, simulation, visualization, and reporting.
- Presented AI innovations and research findings at Ethiopian Tech Expo (largest tech-expo in Africa), including local-language NLP models.

Ministry of Agriculture

National Agricultural Census Contributor

Ethiopia

2023 – 2024

- Assisted in designing software and hardware tools for large-scale rural data collection from 400,000 households.
- Trained field enumerators on digital data collection processes.
- Developed scripts for automatic data cleaning and analysis to support national reporting.
- Improved tools for low connectivity and manual entry error handling.

Wolayita STEM Program

STEM Educator (Volunteer)

Wolayita, Ethiopia

2023 – 2024

- Taught science and technology to over 100 children through hands-on activities and robotics projects.
- Encouraged critical thinking and problem-solving through interactive group exercises.
- Received Certificate of Appreciation from the regional government.

Safari Academy

Founder and President, Global Diplomacy Club

Addis Ababa, Ethiopia

2022 – Present

- Founded a student-led club inspired by Model United Nations.
- Organized workshops, discussions, and inter-school competitions for negotiation and diplomacy skill-building.
- Mentored students in data collection, advocacy, and community engagement.

Weyra Trading

Intern

Addis Ababa, Ethiopia

Summer 2023

- Led projects and built partnerships for an international trading company.
- Designed strategies for operational efficiency and customer engagement.
- Named "Best Intern of the Summer" as the company's first high school intern.

Ethiopian Orthodox Church

Scholar and Musician

[City/Region, Ethiopia]

[Start Date] – [End Date]

- Completed traditional Ethiopian Orthodox scholarly training, mastering ancient rhetoric, theology, and academic practice.

- Engaged in advanced textual analysis and scholarly debate, interpreting canonical texts and using Socratic-style methods to discuss and refute arguments.
- Achieved functional mastery of Ge'ez and composed complex, allegorical poetry on-the-spot, demonstrating elite rhetorical and critical thinking skills.
- Mastered the Begena, a 10-string lyre, and performed professional-level liturgical chant, including memorization and execution of the full hymnal with traditional movements.
- Studied ancient texts and composed advanced rhetorical works, integrating linguistic, theological, and poetic expertise.
- Sustained a multi-year curriculum requiring focus, self-discipline, and dedication to preserve and perform a centuries-old intellectual and artistic tradition.

Awards

International Research Olympiad – Honor Roll

- Ranked in the top 20% globally, proof of exceptional research skills and international academic excellence.

Best Capstone Project of the Year – STEM

- Awarded first place for outstanding performance in a highly competitive academic Mathematics contest.

Academic Competition – First Place

- Awarded for developing an AI-integrated online business management website as a final capstone project, that incorporates national technologies such as Fayda for authentication and Telebirr for payments.

Leadership

Founder and President, Global Diplomacy Club, Safari Academy

- Mentored students in researching, documenting, and presenting social and health issues, helping them develop critical thinking, public speaking, and evidence-based advocacy skills.
- Designed and led community initiatives and student-led projects, resulting in measurable improvements in local awareness, participation, and problem-solving outcomes.
- Organized workshops, simulations, and discussions to teach negotiation, diplomacy, and policy analysis, fostering leadership skills among club members.
- Coordinated inter-school competitions and collaborative projects, building networks and encouraging teamwork, innovation, and global-minded perspectives.
- Represented the club as a delegate of Congo at the Youth Model United Nations at the African Union.
- Competed in the Addis Ababa Debate Championship and achieved first place, showcasing strong argumentation and public speaking skills.

Wolayita STEM Program

Wolayita Sodo, Ethiopia

- Initiated and led science and technology sessions for more than 100 children, designing hands-on activities and robotics projects.
- Mentored and guided children to develop critical thinking and problem-solving skills through interactive group exercises.
- Coordinated volunteer activities and collaborated with regional educators to ensure smooth program delivery.
- Recognized with a Certificate of Appreciation from the regional government for outstanding leadership and contribution.

Team Captain, Track and Field Team, Safari Academy

Addis Ababa, Ethiopia

- Teach captain for Track and Field; led training sessions for junior athletes, improving team race times by 15%.
- Trains daily at 6 a.m. with olympic-level athletes in Addis Ababa, demonstrating elite endurance and commitment.
- Competed in major events including the Sofi Malt Great Ethiopian Run International 10KM and the Great Ethiopian Run.
- Mentored peers on proper technique, conditioning, and teamwork, fostering measurable improvements in team performance.
